DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, **claims 36-56 and 69-74**, drawn to an induction heating method and device for controlling the temperature of a biological specimen.

Group II, **claims 57-68**, drawn to a solid support member in combination with a carrier.

2. The inventions listed as *Groups I* and *II* do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: *Group I* requires the use of a support member which include a cartridge and it further requires induction heating for treating and controlling the temperature of a biological specimen whereas the support member of *Group II* does not include a cartridge; it does not even require any type of heating and it can be used for other processes, such as for coating a material.

Art Unit: 3742

3. Applicant is advised that a complete reply to this requirement must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. If *Group I* is elected, it is suggested that **claim 69** be rewritten in independent form with all the limitations of claim 57 incorporated therein.
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
6. The Group and/or Art Unit location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to **Group Art Unit 3742**.
